## Shop & Pasture Tap Guidelines

Pasture tap is defined as a water hookup that is used for livestock and not for domestic use. To be eligible for a pasture tap, you must have a regular active membership in your name. A pasture tap classified as a commercial business does not qualify as a pasture tap and is billed as a commercial membership. The initial cost for a pasture tap is \$2,000 which includes a meter pit. If a meter pit is not needed in the location, the cost is \$1,000, which needs to be paid before the curb stop is set. The \$1,000 covers the cost of the meter assembly. An annual fixed fee of \$120.00, or a monthly fee of \$10/month if a partial year is incurred, will be billed plus the cost of water per 1,000 gallons used. The billing for monthly fees and water usage will occur at the end of each calendar year.

Shop tap is defined as a water hookup that may be used year round that is part of a structure. This is a separate tap that is not fed off of existing household meter and is not used as living quarters. A shop tap classified as a commercial business does not qualify as a shop tap and is billed as a commercial membership. To be eligible for a shop tap, you must have a regular active membership in your name. For a shop tap, an installation fee of \$1,000 covers the cost of the meter assembly and will be required before the curb stop is set, a fixed fee of \$20/month plus the cost of water per 1,000 gals used will be billed out on a monthly basis.

**There is no membership fee for these taps unless you do not have an existing regular membership, but the initial meter pit and cost of installation will be at the expense of the customer. After the 1 year warranty period and if an approved meter pit is installed, SEWUD will maintain, replace parts, or replace the pit if needed.**

If a tap account becomes inactive and the fixed monthly fee is no longer being paid, the back monthly minimums or \*\$2,000, whichever is less, must be paid before the account will be reactivated.

**\*- This amount is equal to Southeast Water Users District's membership fee.**
